written by Special to Arkansas Catholic |

Arkansas Catholic Online, which makes it possible for subscribers to read the complete newspaper over the Internet each week, now includes access to nearly six years of issues going back through 2002.

"When the online edition was launched, only three months were included in a subscription," *Arkansas Catholic* editor Malea Hargett said. "Now we're adding the archives to make the service more valuable to researchers and to readers."

The archive search feature has been added at no extra charge. Subscribers can now easily search for topics or articles in more than 4,200 pages of *Arkansas Catholic*. Subscriptions are available in terms from three months to one year.
